WHERE FOAM AND POLYURETHANE REDEFINE TOMORROW!

The UTECH Middle East Foam & Polyurethane (MEFPU) Expo 2025 is the largest platform for leading brands as well as emerging players from technical foam and polyurethane sectors from the MEA region to meet suppliers of raw materials, components, machinery, and other technologies.

Since our inception, the aim - that we have successfully reached in the last 3 editions - has been to bridge the gap between exhibitors and visitors, including manufacturers, suppliers, and buyers of technical foam and polyurethane materials, products, technologies & services under one roof.

The Middle East Foam & Polyurethane Conference that runs alongside the show provides a platform for focused discussions with international subject matter experts from the industry sharing information and insights on the current market. This platform will also offer the international community including the exhibitors, visitors, and conference attendees great networking opportunities.

With an overwhelming response to the 2024 edition, Crain Communications and Media Fusion are thrilled to announce the return of UTECH MEFPU Expo in 2025, set to take place from **September 15-17, 2025 at the Dubai, UAE**. The upcoming 4th edition promises bigger innovations, more cutting-edge technologies, a 3-day conference and an unparalleled opportunity for attendees and exhibitors to explore new markets, grow their businesses, and experience the next level of the PU Foam industry.
